

Our Name Says It All.

Join The Revolution!

Participating in School Coupons® Fundraising Programs is the most cost effective way to promote your business and support education.

Your business can participate at no cost in the *School Coupons* Fundraising Program by providing proprietary discounts and offers. The *School Coupons Savings Book* has established a reputation of being a unique product affording real value, while providing participating schools retained earnings that are among the highest in the fundraising industry. Virtually all types of businesses are selected for inclusion, with primary categories of Fine and Casual Dining, Fast Food, Retail, and Entertainment.

By participating in *School Coupons*, you position your business as one involved in the community and supporting local education, while marketing and promoting your business to the lucrative and difficult-to-reach K-12 market.

School Coupons Programs have raised tens of millions of dollars for education, while generating billions of dollars in sales for our participating merchants.

More than a coupon book, *School Coupons* is an annual event involving all aspects of the community, with significant media support, in-class promotion, take-home sales material, special merchant signage, and staff and student incentives.

You are invited to join the hundreds of businesses already participating in *School Coupons* – from local proprietorships to Fortune 500 companies – with each one building their business while supporting education.

To request a Merchant Application, call 800-626-0335.
