

SYSTEM-WIDE PROGRAM

Our Name Says It All.

Bring The Million Dollar Fundraiser To Your Community

System-Wide Participation in School Coupons® ensures maximum response, broad community support, and the highest retained earnings possible!

School Coupons is one of the first fundraising programs to involve entire school systems and their communities in a unified goal – and with overwhelming results. Our system-wide programs are among the most financially successful fundraising programs in the nation, with retained earnings exceeding one million dollars annually.

School Coupons system-wide programs afford complete customization – ensuring that every program is tailored to meet the specific needs of each participating school system. Virtually every aspect of the system-wide program – including book size, format, redemption value, selling price, and selling period – is crafted to meet the school system’s needs and maximize earnings for every school. Additionally, with system-wide participation, the *School Coupons* program can also provide funds at the system level for technology in the classroom, teaching grants, and other programs, as well as assist and support affiliated education foundations.

Our programs also act as a catalyst for creating new business partnerships and community involvement programs, providing long-term benefits well beyond the campaign.

It works best when everyone works together!

Each *School Coupons* program receives broad community support and significant media attention, while providing participating schools with the highest retained earnings possible – up to eighty percent! The *School Coupons* system-wide program is more than a simple fundraiser – it is an eagerly anticipated annual community event benefiting your school system.

Contact us to discover how easily your school system or education foundation can create your own *School Coupons* fundraising program. Call 800-626-0335 for your free system-wide program analysis.
